Main material: Steel
Function: Privacy

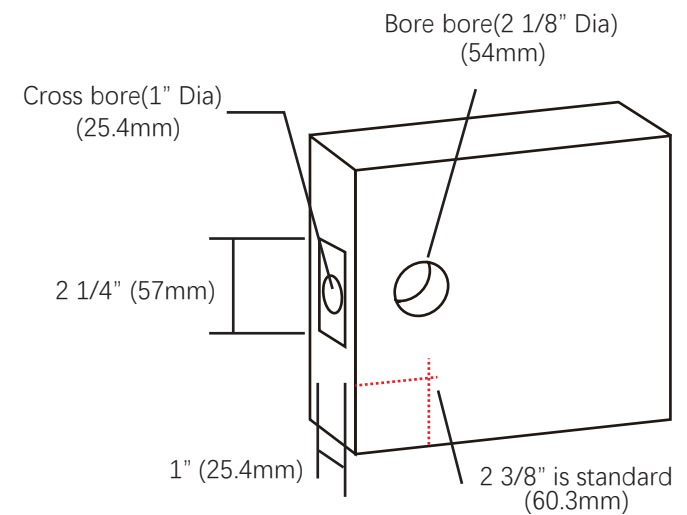

Passage latch

Information:

Backset: 60mm
Main material: Steel
Function: Passage

Drilling Drawing

Pressing down 32° opens the door,
providing a more comfortable opening experience.

32°

Pressing down the interior handle
directly unlocks the door.

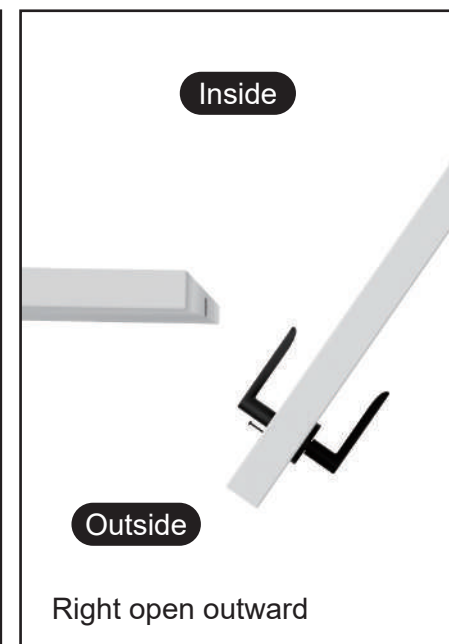

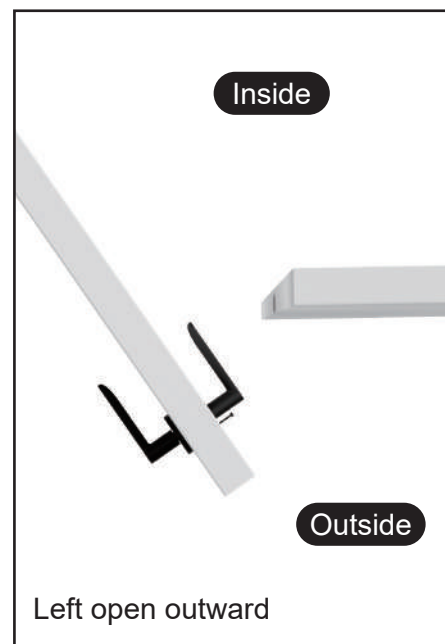

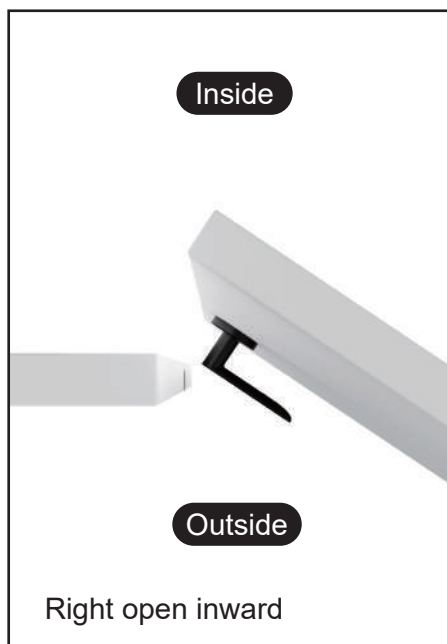

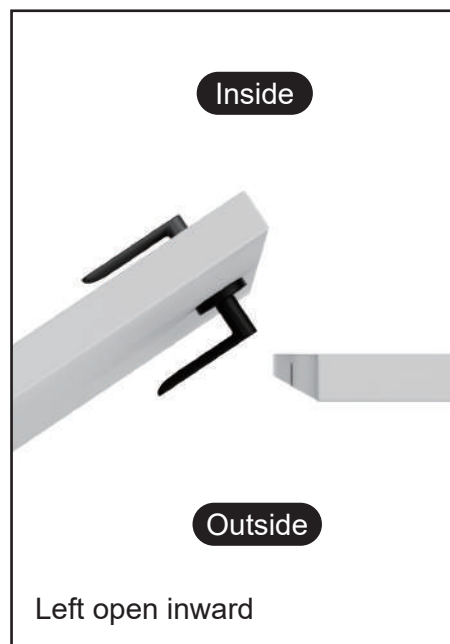

An emergency unlock hole is provided
on the outside, allowing for quick entry
in emergencies.

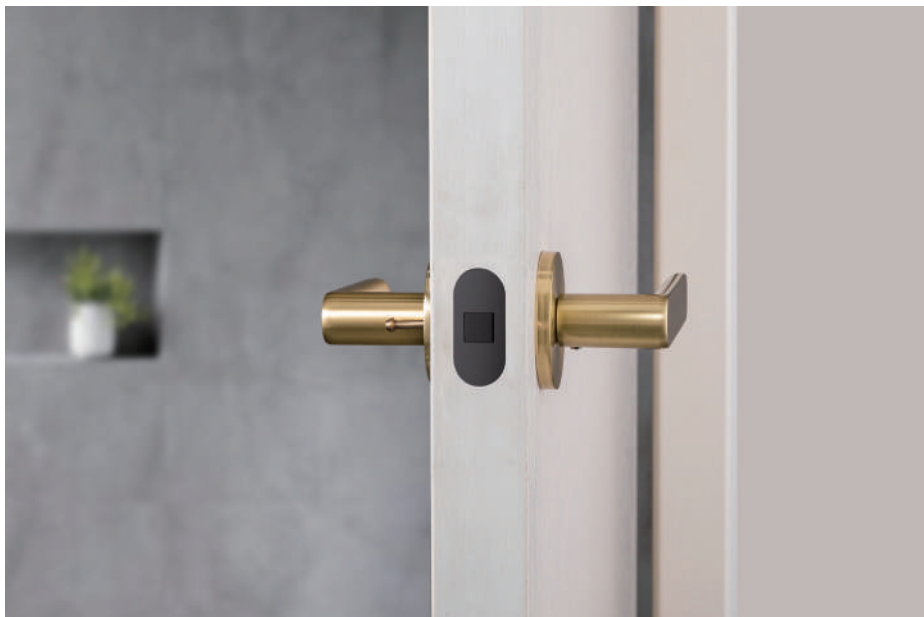

The strike box is equipped with silent padding
to make opening and closing quieter.

The forent and strike plate feature hidden screws,
giving the product a more minimalist and aesthetic
look.

The magnetic latch is universal for
left-handed and right-handed doors,
as well as outward and inward opening doors.
